

FLORIDA'S LEADING PRECAST COMPANY

STORMWATER INFRASTRUCTURE PRODUCTS

Precast Specialties manufactures a full line of **Stormwater Infrastructure Products** — from standard inlet boxes to large, custom-engineered vaults.

Whether your project calls for rapid-turnaround standard units or tailored designs, our experienced team and streamlined production processes deliver dependable, versatile solutions that keep projects moving.

Standard Components

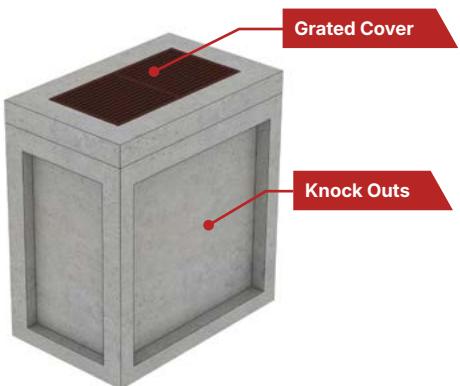

Reliable, stock units for quick turnaround and standard stormwater applications.

Inlet Box - 2' x 2' x 4'

Includes: Top deck with an 18" frame and cover and grated opening. Compact, durable inlet structure for curb or area drainage, runoff collection, and quick installation timelines.

Component Type	Size
Inlet Box	2' x 2' x4'

Inlet Box - 2' x 4' x 4'

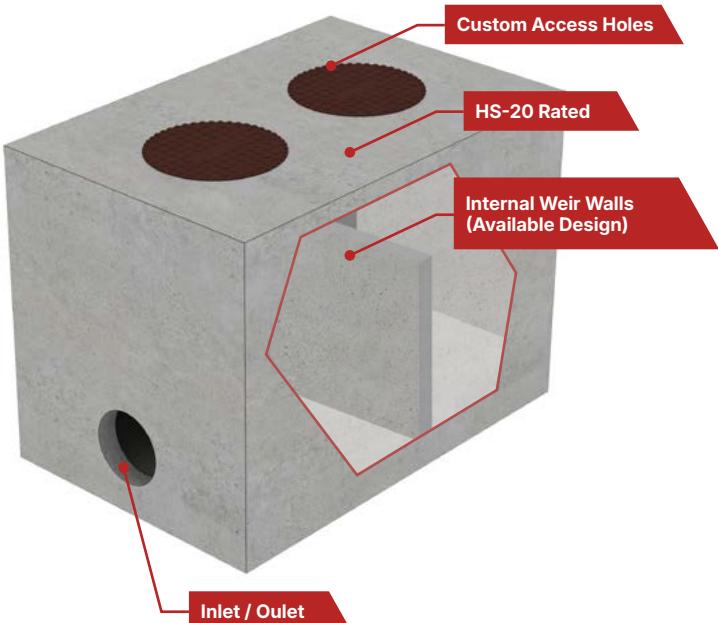

Includes: Top deck with an 18" frame and cover and grated opening. Larger capacity unit offering efficient surface water capture. Commonly used in roadway and parking lot applications.

Component Type	Size
Inlet Box	2' x 4' x4'

Custom Components - Adjustable Form Systems

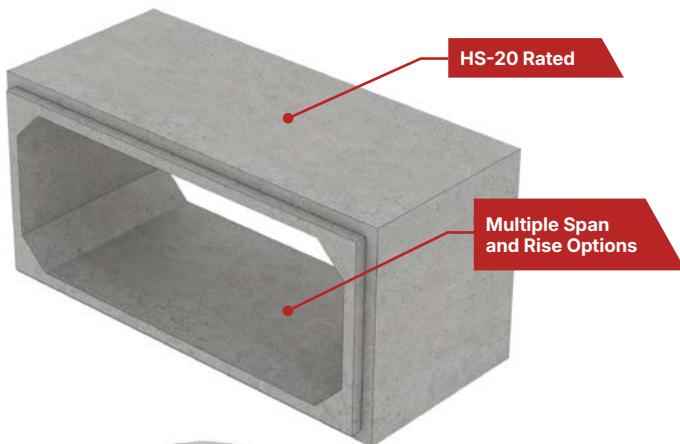

Engineered flexibility for specialized stormwater management and treatment systems.

Precast Concrete Vaults - 3' x 3' to 12' x 24'

Custom-sized concrete vaults built to meet project-specific hydraulic and structure requirements. Ideal for filter treatment systems, separators, or volume control.

Component Type	Custom Vault Sizes
Custom Vault	3' x 3'
Custom Vault	4' x 4'
Custom Vault	4' x 6'
Custom Vault	4' x 8'
Custom Vault	6' x 6'
Custom Vault	6' x 8'
Custom Vault	8' x 8'
Custom Vault	8' x 10'
Custom Vault	8' x 12'
Custom Vault	8' x 14'
Custom Vault	10' x 16'
Custom Vault	10' x 20'
Custom Vault	10' x 26'
Custom Vault	12' x 14'

Box Culverts

The modular design is ideal for versatile applications and quick installations. Box Culverts are made for high-flow conveyance, stormwater detention, and retention.

Component Type	Custom Vault Sizes
Box Culvert	Custom Sizes Available

Manholes - 48" Diameter

Durable precast structures built for reliable access, inspection, and connection within stormwater and utility systems.

Component Type	Custom Vault Sizes
Manholes	48" Diameter
